**Albertsons Continues to Support 4-H**

Once again, Albertsons has made a very generous donation of gift cards to the 4-H Program in San Luis Obispo County. The presentation was made in July at the Paso Robles Event Center just prior to the kick-off of the Mid-State Fair. We were fortunate to be represented at the presentation by so many of our 4-H youth, and we thank them for taking the time to attend.

The donation of cards, although not a cash gift, is used to support our program and events in a variety of ways all year long. They are used to purchase food and some supplies for county events and trainings, including the Food & Arts Celebration and Fashion Revue, Presentation Day, Youth Camp, Leader Appreciation & Training, Record Book Trainings and Judging events, and Officer and Junior/Teen Leader Training. However, the greatest use goes toward buying food and supplies for our county’s biggest fundraiser—the Chicken-Q. Through use of the gift cards, our county program is able to focus its resources on awards and scholarships, conferences for youth and leaders, curriculum, SET activities, outreach activities, hall rentals and other items that enrich our program.

It is through the support of our community, and donations like Albertsons, that help us provide young people in SLO County with the tools they need to thrive and succeed throughout their lives. Thank you Albertsons!

**4-H National Youth Science Day**

**October 5, 2011**

The fourth annual 4-H National Youth Science Day will take place on October 5, 2011. This year young people across the nation will become scientists for the day.

In this year’s experiment, Wired for Wind, youth will engage in the engineering design process of renewable wind energy technology. In this three-part experiment, youth will design and build their own wind turbines, play with blade pitch variables, and map a potential wind farm site in their own state.

Learn more about this year’s National Youth Science Day and download experiment guides at ca4h.org/Projects/SET/NYSD/2011_4H_NYSD/ or 4-h.org/NYSD/.

The SLO Scientists program is offering a “The Power of the Wind” session in north county this fall. This curriculum explores how we use wind and how geography and community influence wind power projects. 4-H members who join this or other SLO Scientists sessions will receive club project credit.

If interested, call Heather Dauer, SLO Scientists Coordinator, at 781-5944 or the 4-H Office at 781-5943.

**National 4-H Week**

October 2 - 8, 2011

National 4-H Week is just around the corner, and it’s time to start thinking about what you and your club can do to help promote 4-H in your community. Here are a few ideas to get you started:

- Prepare displays on your projects, or 4-H in general, to put up in your school, library, store, or shopping center.
- Talk to your friends about joining 4-H.
- Give a presentation at school or to a service club in your community.
- Submit a newspaper article highlighting your club’s activities and the benefits of being a 4-H member.
- Send a public service announcement to your local radio or television station, or better yet, make arrangements to appear on the show!
- Ask to have the 4-H flag flown at your school, fire department, library, etc.
- Thank a group that has helped your club by writing a special letter, presenting a plaque, or honoring them in some other way.
- Volunteer at a rest home, food bank, homeless shelter, or hospital.
- Distribute 4-H posters and brochures to be displayed at community businesses.

Promotional materials are available in the 4-H office and online at [www.4-hbrandnetwork.org](http://www.4-hbrandnetwork.org). During National 4-H Week, **Young Achiever** storyboards will be on display in the lobby of the County Government Center, along with other great information about 4-H in SLO County. Make sure to check it out!
Calling All Cavy Enthusiasts!!!!!!
(Cavies are critters commonly called “guinea pigs”)

A NEW Countywide Cavy Project Group is getting ready for a terrific year! Cavy project leader Erin Huard has years of experience showing, breeding, and rescuing cavies. She is excited to share her knowledge with all SLO Co. 4-H Members. Cavies are a terrific first animal project for primary members and older members too, because they are small, relatively inexpensive, and can easily be kept inside. More importantly, they’re just plain FUN! Cavy project meetings will be held the first Tuesday of the month at 6:00 p.m. in the UCCE auditorium in San Luis Obispo (downstairs from the 4-H office). The first two meetings will be September 6th and October 4th. All are welcome. If you have any questions please contact Erin at critterscaviary@gmail.com or 709-4457.

4-H SLO Scientist Facilitator Gary Corsiglia Guest Speaker at 4-H California State Leadership Conference

This summer, our very own 4-H SLO Scientist facilitator, Gary Corsiglia, was invited to be a presenter at the California 4-H State Leadership Conference which was held at the University of California, Davis, during the last weekend of July. The Leadership Conference brought together high school youth and an adult delegation from across California in a four-day leadership training, networking and learning experience.

Gary led several workshops giving an overview and background of our unique SLO Scientist program including offering the groups the opportunity to participate in some examples of our fun hands-on science activities from “Imagineering” and “Power of the Wind.” Some may have even come away with the idea of starting similar 4-H science related programs! Many thanks to Gary for offering these terrific workshops at this summer’s State Leadership Conference.

My State Leadership Experience
by Sigrid Derickson, Rio Rancheros 4-H Club

State Leadership Conference (SLC) was a fantastic conference. There were over 400 people there either working, volunteering, or being a camper. Each day had a different Dr. Seuss theme.

The first day our guest speaker was a comedian who talked about how things change and you have to keep up with the change. To wrap up his speech he preformed a dance he called the revolution of dance. (you can YouTube it). The next day we had our first session of classes, my first class was “join the revolution of responsibility”. It talked about how to start a service learning project that everyone can get involved with. It was a very informative class that I know I will use in my next year of 4-H. My next class was Iron chef. The class was about being creative with your cooking and still having it be tasty. The class also taught about using a variety of vegetables to make your food more healthy. This is what I plan to base my cooking group on; healthy eating and healthy living. That concludes the first day.

The second morning our guest speaker talked to us about believing in ourselves and surrounding ourselves with our dream team (people who will encourage you to be the best person you can be). We had three shorter sessions that day. My first session was titled the Egg-maxing Adventure Tour. Some of the students from UC Davis gave us a tour of the campus as well as showing us some of UC Davis’s famous egg head statues. My next activity was called the Cardboard Automation-Simple Machines, we used cardboard and skewers to create a machine that could spin round and round, go up and down, and any other way in between. And finally, I ended the day with a class called “Are You Stressed?” In that class I learned about what makes you stressed and how to become unstressed.

The next day we had a guest speaker who told us that what we do shouldn’t be for ourselves but for others. Instead of classes we played a life sized game of life. We moved from station to station collecting stickers to place on our boards. Each station taught us about healthy living. The conference was a great experience that taught me a lot about what I personally have to offer to my community. The food was amazing, the housing was fantastic and SLC was a great experience that I highly recommend to all 4-Hers.

On Friday, July 29th, Cambria 4-H members Carlos Plummer, Kyle Plummer and Emily Dubnow helped the Friends of the Cambria Library (FOCL) in setting up for their two day book sale. The 4-H members pulled out books from boxes and sorted them in the right place. It was a fun learning experience and was very helpful for the FOCL.

Calling All Science Enthusiasts: Join a 4-H SLO Scientist Group!

By Heather Dauer, 4-H SLO Scientist Project Coordinator

If you enjoy science and like to have fun doing science-related activities, then participating in a 4-H SLO Scientist group could be for you! And did you know that SLO Scientist can be added as a project within your local 4-H Club? What could be better than science in 4-H included as a 4-H project? All you do is come with a favorite adult (parent, grandparent or other significant adult in your life) generally twice a month to participate together as a science team with other youth/adult teams in science based hands-on activities led by our terrific SLO Scientist volunteer facilitators. The informational flyer included in this issue of 4-H News & Views gives an overview about this terrific program.

In San Luis Obispo, we have two groups beginning in September. On alternate Monday evenings, the SLO Scientist group led by Julie Fallon and Gary Corsiglia will feature our fascinating “Beyond Duck, Cover and Hold.” You’ll really get the feel for what it’s like to experience an earthquake while learning about actually preparing for an earthquake as well as aspects of our local geological wonders of the Central Coast....all while having fun with related hands-on activities.

Our newest program, entitled SLO Scientist II, is geared for youth at the middle school level. This group, led by Gary Corsiglia and featuring the critical conservation subject, “It’s No New Water,” will meet several Wednesday evenings this fall. This very active group plans to continue with the amazing study of “Robotics” in the spring.

If you live in the North County area and have alternate Monday mornings available, (well-suited for a 4-H member involved in home studies) you’re invited to participate in “Power of the Wind” led by John McCabe. This amazing curriculum encompasses lots of activities related to turbines, wind power and electricity.

Our “Learning Among the Oaks” / “Oak Woodland Wildlife” led by Beverly Gingg and her dedicated volunteers lead wonderful hikes and activities related to our local oaks and their importance to our environment. This exciting group meets throughout the year at the Santa Margarita Oak Woodlands generally after school.

*** If you and your child are interested in finding out more about joining a SLO Scientist group or would like some information about leading a group, please contact Heather Dauer, 4-H SLO Scientist Project Coordinator, at 781-5944. Besides the individual SLO Scientist groups described above beginning this fall, we hope to have new groups starting after the New Year, so please call for updates.

*** We are always looking for adult volunteers to lead our SLO Scientist groups. An adult and teen 4-H member may wish to co-lead a SLO Scientist group together within a 4-H Club. Training sessions for SLO Scientist volunteer facilitators to lead our youth/adult science groups are provided as well as materials for each session including SLO Scientist curriculums which emphasize science related hands-on activities. Please feel free to call for more information.
On August 3, 2011, three members of the Cambria 4-H Club volunteered to help count and sort bags for the San Luis Obispo Food Bank. The 4-H members spent 2 hours sorting and packing different sizes of paper and plastic bags that will be used at the monthly Food Bank Distribution at the Santa Rosa Catholic Church. The work that the 4-H members did will provide the Food Drive with enough bags to last for over 6 months.

Who Let The Dogs Out!?
By Raegan Lomanto

It was a dog-lover’s paradise this year at the 2011 California Mid State Fair Dog Show! From Chihuahuas to Great Danes, there was just about every dog you wouldn’t normally see jogging around town with their owner! Maureen Pushea, Clarice Dart, Emma Dart, Mallory Cleaver, Madison Warren, Aurora Lomanto, and Raegan Lomanto were all there representing Ranchita Canyon 4-H! Everyone did REALLY well! At her first dog show, our very own, Emma Dart and her dog, Argo, won 1st place in obedience! Aurora Lomanto and her dog Millie, won 2nd place in showmanship and Raegan Lomanto and her dog Cisco won 2nd place in obedience and this was only Cisco’s 1st fair! Madison Warren won 2nd place in obedience with her dog, Daisy! Our only primary member showing, Mallory Cleaver did an amazing job showing her dog, Truman! And last, but not least, Maureen Pushea and her dog Kasey, were such good sports! They hung in there and won 4th place in obedience! You see, when you have fun, you’re ALWAYS a winner!

Pancakes Anyone?
By Raegan Lomanto

Once again, over 1,000 hungry Paso Roblans came to the Downtown Park for some pancakes that taste like no others! You want some good pancake batter? Lester Rouget is the guy to call! A few Ranchita Canyon 4-H members and their parents went to the Paso Robles Grange to help Lester and his crew crack over 1,800 eggs for the next day - The Community Pancake Breakfast!! Not only did the crew of 4-Hers from Ranchita Canyon 4-H serve pancakes, but they also served eggs, sausage, coffee, and orange juice! Meanwhile at the animal barns at the fair, those 4-Hers were getting hungry! Debbie McPherson, our Food & Nutrition leader knows that breakfast is the most important meal of the day & took about 20 breakfasts to the sheep & pig barns for the kids that were showing their animals that day! About 45 pancake eaters were lucky enough to eat pancakes cooked by two 4-Hers themselves, Raegan and Aurora Lomanto!
