2014 National 4-H Week

We know that 4-H youth are making extraordinary changes in their communities every day. Now it’s time to share their faces with the world.

Express your 4-H pride with this year’s theme, “#iam4H.”

From October 5 - 11 post a picture of yourself with your #iam4H sign. Please encourage youth, volunteers, professionals, and alumni to share their pride photo on Facebook, Twitter or Instagram, along with the #iam4H and #4HWeek hashtags.

It is October again and time for another 4-H National Science Project on October 8th—National Youth Science Day! This year the 4-H National Science Project proposes a problem to solve: How to get food to a place cut off from transportation after a storm. How about a rocket! This year’s activity is about perfecting your rocket design by collaboration with your club members. Your club could perfect your rocket to carry the most food the farthest. To find the best combination of ideas you will work together to design experiments, take data, and learn from your results. These are the same steps scientists and engineers use to perfect rockets and all the other gadgets we use every day. Youth around the country have already posted results of their projects on the National 4h web site: http://www.4-h.org/4-h-national-youth-science-day.

Since 2008, the National 4-H office has prepared kits to support 4-H Club Leaders facilitate science projects. Materials to facilitate this year’s experiment and others in robotics, agricultural science, wind power, environmental science and alternative energy are available on loan from the County 4-H Office—Contact Krysti Jerdin, Community Education Specialist at 781-5950. The kits include a facilitator guide, youth guide books and all the materials needed to conduct the experiment.

- 4-H National Youth Science Day (NYSD) - October 2014 http://4h.ucanr.edu/Projects/SET/NYSD/ The 2014 NYSD is titled, Rockets to the Rescue where youth will be tasked with the mission: design and build an aerodynamic food transportation device that can deliver a payload of nutritious food to disaster victims. Youth will learn engineering concepts, develop math skills, learn about nutrition and help solve a relevant, global issue. The focus of 4-H NYSD is to encourage youth to experience science in a fun, constructive manner, increase interest in the sciences and encourage participation in support of 4-H programs.

- Member Tip of the Month:
  Did you know about the new animal science curriculum published just this year by UC specialists and academics? Discover Sheep and Swine curriculum from animal’s point of view. Learn about pre-harvest food safety—protecting the human food supply from disease-causing pathogens, parasites, and other harmful agents.
  Find these resources and more on the State 4-H website. http://4h.ucanr.edu/Resources/Curriculum/FREE/

- 4-H Uniform Selection Update
  The 4-H State Recognition and Incentives Committee will analyze and evaluate the results of the uniform voting process and make recommendations to the Associate Director of 4-H Program and Policy in early 2015. The new uniform selection process will take time to implement. We anticipate that there will be a transition period to the new uniform and an implementation process will be developed in the coming months.

As the adults of San Luis Obispo County... One of our greatest hopes as a community is that our children grow up with healthy minds, bodies and spirits that enable them to maximize their potential.

As endorsers of the Children's Bill of Rights, we collectively pledge to work together toward this vision. May we, together, demonstrate daily that our youth are our highest priority, as evidenced by our collective commitment of time, money, sustained effort and unified support. May we cultivate our understanding of child development and use it to nurture, guide, challenge, and encourage our children along their many paths.

As the children and youth of San Luis Obispo County, may we each...

1. Live in a stable, comfortable home surrounded by parents, family and other caring adults who nurture us throughout childhood.

2. Eat healthy and plentiful meals every day.

3. Have the basics for our daily life — clothing, transportation, and supplies for school, outside interests, and activities.

4. Be and feel safe, everywhere we go.

5. Enjoy daily physical activity and time outdoors.

6. Visit a doctor, dentist or counselor when needed to help us stay physically and mentally healthy.

7. Learn and master ideas and skills in and out of school that inspire us, help us understand and be ready for our place in the world.

8. Explore a variety of experiences — in arts, nature, culture and music — that illuminate the world's natural beauty, richness and human creativity.

9. Make and keep healthy relationships with friends.

10. Know that adults and peers listen and support us as individuals while we grow, and respect our diverse cultures, backgrounds, circumstances, talents, sparks, and passions.

11. Have opportunities to contribute in meaningful ways to our community by voicing our ideas, sharing in decisions and offering service to others.

12. Be encouraged to dream big, to grow through challenge and mistakes, and to always live with hope and aspiration.

On June 25-29 at the 2014 California Horse Classic show in Elk Grove, Calif., Valerie Best of Santa Margarita 4-H and the Creston 4-H Horse Project represented the San Luis Obispo County 4-H Horse Group. She rode with 111 other 4-H horse children. Best competed in Clover-leaf Barrels, Single-stake, Hunter Hack, Versatility, Trail, and English Equitation medal. She won 9th in Single-stake, 9th in Barrels and second in Versatility. She did not place in her other classes.

In addition to the learning experiences and fun competition, Best also really enjoyed the horse facility where they were competing, Brookside Equestrian Center. It is a really nice facility with two exercise arenas, two competition arenas and one huge arena that we did not use because it was closed off so that the people who boarded their horses there had a place to ride. The Equestrian Center also had showers for the horses and the people, a nice, grassy corral to pitch tents in, and a swimming pool with diving board. The facility served dinner on several nights including a spaghetti feed and taco night as well. It wasn't too hot, either, which was a plus.

"I really enjoyed this horse show and plan to work extra hard so that I can qualify for it again next year," Best said.
