Have you ever wondered:

How much erosion is natural? If I put in a riparian pasture, can I still graze that land? I've always thought willows are bad, are they? How can I stop losing my land? Can I remove that fallen tree that is blowing out the bank? It's my land, why do I need permits? How can I be a good steward of my creeks as well as my land? **Come to the meeting and find the answers.**

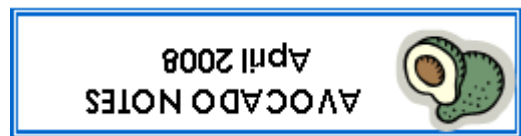

Approved for 4 hours of Regional Water Quality Board Education Credits
