

# SUDDEN OAK DEATH

Sudden Oak Disease (SOD) is a serious exotic disease which infects several Californian oak species, including Coast Live Oak.

Attend an informational meeting and volunteer to collect leaf samples from Bay Laurel trees **OR** volunteer to allow UC Master Gardeners to collect samples from your property.

## **THE 2017 SOD BLITZ INFORMATIONAL MEETINGS:**

**Thursday May 11, 1pm to 4pm** at the SLO County Department of Agriculture, 2156 Sierra Way, San Luis Obispo

**Friday, May 12, 6pm to 8pm**, at the SLO County Atascadero Library, Martin Polin Community Room, 6555 Capistrano Ave, Atascadero

Leaf sample collection will take place on Saturday and Sunday, May 13 and 14.
